Contents

Abreu M: Topology of symplectomorphism groups of $S^2 \times S^2$ 1
Albouy A, Chenciner A: Le problème des n corps et les distances mutuelles 151

Basmajian A, Miner R: Discrete subgroups of complex hyperbolic motions 85
Bertolini M, Darmon H: Heegner points, p-adic L-functions, and the Cerednik-Drinfeld uniformization 453
Boyer CP, Galicki K, Mann BM, Rees EG: Compact 3-Sasakian 7-mainfolds with arbitrary second Betti number 321

Caporaso L, Harris J: Counting plane curves of any genus 345
Chenciner A → Albouy A
Colding TH, Minicozzi II WP: Weyl type bounds for harmonic functions 257

Darmon H → Bertolini M

Edidin D, Graham W: Equivariant intersection theory (With an Appendix by Angelo Vistoli: The Chow ring of $\mathcal{M}_2$) 595

Farb B, Mosher L: A rigidity therorem for the solvable Baumslag-Solitar groups 419

Galicki K → Boyer CP
Garoufalidis S, Levine J: Finite type 3-manifold invariants and the structure of the Torelli group. I 541
Goresky M, Kottwitz R, MacPherson R: Equivariant cohomology, Koszul duality, and the localization theorem 25
Graham W → Edidin D

Harris J → Caporaso L
Hoffmann DW: On the dimensions of anisotropic quadratic forms in I^4 185
Hwang J-M, Mok N: Rgidity of irreducible Hermitian symmetric spaces of the compact type under Kähler deformation 393

Kawazumi N: A generalization of the Morita-Mumford classes to extended mapping class groups for surfaces 137
Kobayashi T: Discrete decomposability of the restriction of $A_q(\lambda)$ with respect to reductive subgroups. III. Restriction of Harish-Chandra modules and associated varieties 229
Kottwitz R → Goresky M

Levine J → Garoufalidis S

MacPherson R → Goresky M
Mann BM → Boyer CP
Michel P, Ullmo E: Points de petite hauteur sur les courbes modulaires $X_0(N)$ 645
Miner R → Basmajian A
Minicozzi II WP → Colding TH
Mok N → Hwang J-M
Mosher L → Farb B

Rees EG → Boyer CP
Robbiano L, Zuily C: Uniqueness in the Cauchy problem for operators with partially holomorphic coefficients 493
Rudolph DJ: Fully generic sequences and a multiple-term return-times theorem 199

Tolman S: Examples of non-Kähler Hamiltonian torus actions 299

Ullmo E → Michel P

Vistoli A: Appendix. The Chow ring of $\mathcal{M}_2$ 635

Woodward C: Multiplicity-free Hamiltonian actions need not be Kähler 311

Zuily C → Robbiano L
